

Professional Summary

AI ethics writer, researcher, and certified Cyber Defense Analyst combining a foundational grounding in network defense, risk management, and AI prompt architecture. Founder of The Being Human Project, focusing on responsible AI adoption, data privacy compliance, and human-centered technological development. Drawing on rigorous academic training and extensive cross-cultural leadership, brings a disciplined analytical framework to security operations, incident response, and governance.

Technical Skills

- **IT Operations & Cybersecurity:** Threat Monitoring, Incident Response & Threat Mitigation, Cybersecurity & Risk Management (GRC), Identity & Access Management (IAM)
- **Networking & Cloud Platforms:** Networking Fundamentals, AWS, GCP, Firebase
- **Programming & Automation:** Python, JavaScript, SQL, HTML/CSS, Git Version Control, Bash/PowerShell scripting concepts
- **Operating Systems & Environments:** Windows, Linux, macOS, Virtualization

Professional Experience

The Being Human Project **Founder & Developer**

03,25 - Current

- Designed and deployed functional prototype applications (*The Compassion App, GoodBoy! Travel Companion*) integrating AI toolchains, low-code frameworks, and secure cloud storage (AWS, Firebase).
- Managed end-to-end version control, repository maintenance via GitHub, and API routing (Google Maps, LLM endpoints).
- Established structured prompt logic and data-mapping pipelines to ensure reliable system behavior and structured data handling.

DNA Prep & Early College Academy **Educational Director & Lead Teacher**

08,17 - 06,20

- Spearheaded hybrid curriculum delivery, institutional compliance standards, and collaborative team communication across multi-stakeholder environments.
- Maintained rigorous operational records, directed group dynamics, and implemented structured problem-solving frameworks for staff and students.

Education

University of Wales, Bangor UK
Advanced Master MTh

Graduation Date 08,09

Certifications

- **DCWF Cyber Defense Analyst Certification** – University of Louisville, Digital Transformation Center (Earned Sep 2026)
 - **ISC2 Domain Training & Badges** – Security Principles, Incident Response, Business Continuity, and Disaster Recovery Concepts (Exp. 2027)
 - **AI Governance and Ethics** – Alison (Exp. 2035)
 - **ProfAI: AI Proficiency Certification** – Section (Exp. 2035)
-

Leadership & Volunteer Experience

Cross-cultural Communication & Leadership
Teacher/Pastor

10,97-04,08

- Managed instructional scheduling, curriculum engineering, and educational policy compliance for cross-disciplinary learning environments.
- Applied advanced anthropological , theological, philosophical, and social science principles to guide large cohorts through complex conceptual models, historical resistance literature, and cultural hermeneutics.
- Utilized trauma-informed care and specialized human communication methodologies to support diverse multi-national stakeholders across public, non-profit, and academic sectors.
